Profile Summary

Java Full Stack Developer experienced in Java, Spring Boot, React.js, REST APIs, and MySQL. Hands-on experience in developing web applications, AI-powered solutions, and scalable backend services. Strong problem-solving and software development skills.

Technical Skills

Programming Languages: Java (Java 8 and Java 17 Features), JavaScript , SQL

AI and Emerging Technologies: Generative AI (Fundamentals) , AI API Integration

Frontend: HTML5, CSS3, JavaScript(ES6+), Reactjs, Redux

Backend: Spring Framework, Spring Boot, Spring MVC, Hibernate / JPA, RESTful APIs, Microservices (Learning/Hands-on), Maven

Databases: MySQL , PostgreSQL

Developer Tools: Visual Studio Code , Spring Tool Suite (STS), Postman, MySQL Workbench , Github Git

Deployment/DevOps: Render , Vercel , Docker (Basic)

Projects

AI-Analytical Dashboard | *Java, Spring Boot, React.js, MySQL, REST APIs, Generative AI, Chart.js* **May 2026**

- Developed an AI-powered analytical dashboard to transform raw business data into interactive visual insights and performance metrics.
- Built RESTful APIs using Spring Boot to process, manage, and serve analytical data efficiently to the frontend.
- Integrated AI-driven data analysis features to identify trends, generate insights, and support data-driven decision-making.
- Designed responsive and dynamic dashboard components in React.js with charts, graphs for real-time monitoring.
- Implemented secure data storage and retrieval using MySQL, ensuring efficient handling of large datasets and optimized query performance.

Document Signature App | *Java, Spring Boot, React.js, MySQL, REST APIs, JWT Authentication, Postman* **Jan 2026**

- Developed a full-stack Document Signature Application using Spring Boot, React.js, REST APIs, and MySQL.
- Implemented secure authentication and role-based access control to protect document workflows and user data.
- Designed and developed RESTful services for document upload, management, approval, and digital signature operations.
- Built responsive React.js interfaces for seamless document tracking, signing, and workflow management.
- Optimized database operations and document processing to ensure secure, reliable, and efficient application performance.

Smart Contact Manager | *HTML , CSS, Bootstrap, Javascript, SpringBoot, JPA, MySQL, Thymeleaf* **Dec 2025**

- Developed a Smart Contact Manager web application using Spring Boot, Thymeleaf, Hibernate, and MySQL to manage personal contacts efficiently.
- Implemented user authentication and authorization allowing users to securely register, login, and manage their own contacts.
- Built features to add, update, view, and delete contacts with image upload functionality.
- Integrated pagination and responsive UI using Bootstrap to improve user experience when viewing large numbers of contacts.
- Designed a layered architecture (Controller, Service, Repository) using Spring Data JPA for efficient database operations.

Education

Centre For Development in Advanced Computing (CDAC),PUNE

Post Graduate Diploma in Advanced Computing

CGPA/Percentage: 6.5/ 65

2024

IPS ACADEMY,School Of Computers

Post Graduate Degree - MCA (RGPV University,Bhopal)

CGPA/Percentage: 7.89 / 79

2023

PunamChand Gupta Vocational College, Khandwa

Under Graduate Degree -Bsc IT (DAVV University,Indore)

Percentage: 65.54

2020

Certifications

- CDAC Certified
